

CyberLink PowerDVD 8

The No.1 DVD playback Enterprise Solution

- Training and corporate video content delivered with unsurpassed quality
- The best choice when standardizing your various DVD players.
- PowerDVD is widely pre-installed in global PC brands. CyberLink allows those PCs to apply UPGRADE pricing to turn the OEM/bundled license to Volume License.
- MSI format - Easy deployment and management.
- Easy to use – No IT service call.

Multi-versioning to best fit your request.
