CyberLink PhotoDirector 365
Feature Introduction

PhotoDirector

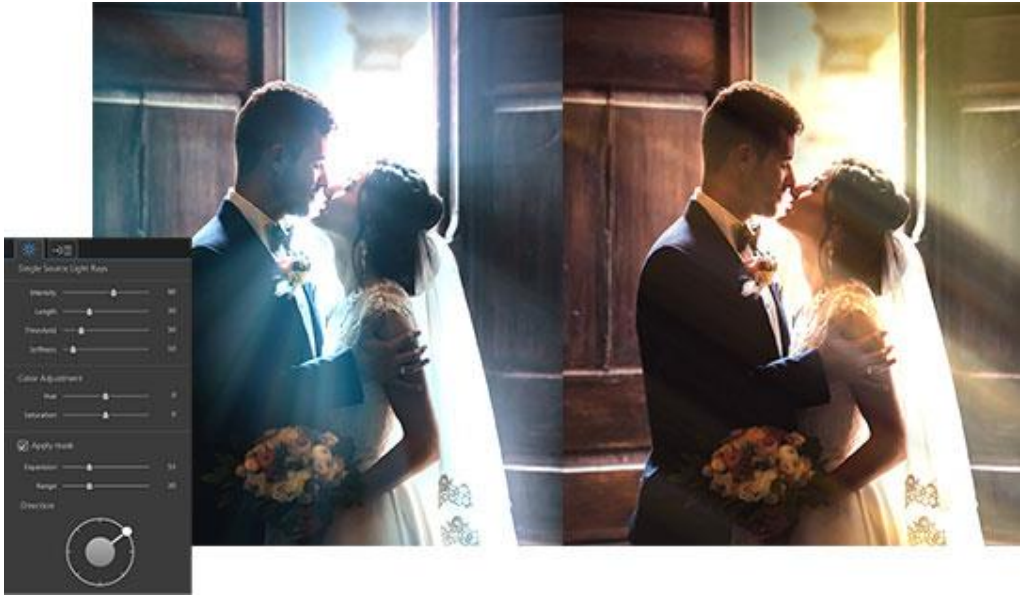
Turn Your Photos into Art.

Photo Animation

Generate natural-looking motion and bring your still images to life with the Photo Animation Effect.

NEW

Light Rays



Render the perfect night scene with light rays. Create illuminated cityscapes and soften shots rich with natural sunlight.

NEW

Person Segmentation

Precisely mask the outline of people in your images. Achieve flawless silhouettes of objects and remove objects seamlessly.

Dispersion Tool

Distort, rearrange, or disintegrate every particle of your image.

Glitch Art

Discover hidden beauty in your images by splitting and combining color layers with the Glitch Art effect.

NEW

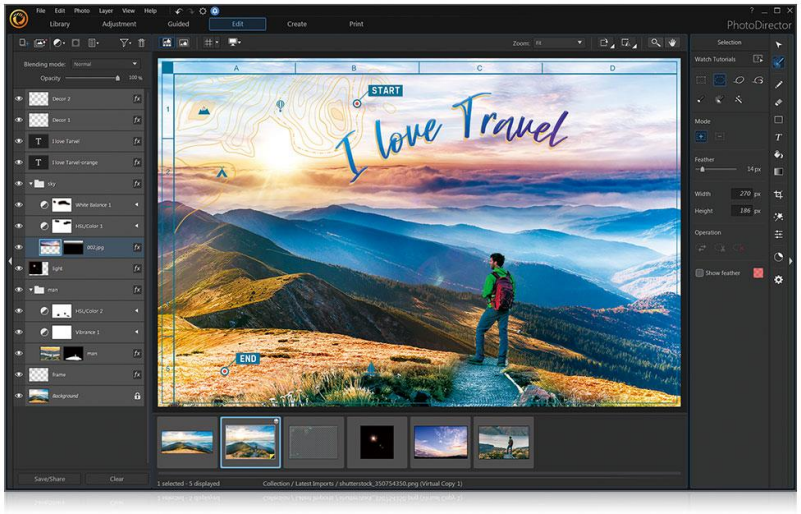
Layer Editing History

Create without fear of mistakes. Quickly switch between any layer edit you've ever made to find the perfect look.

ENHANCED

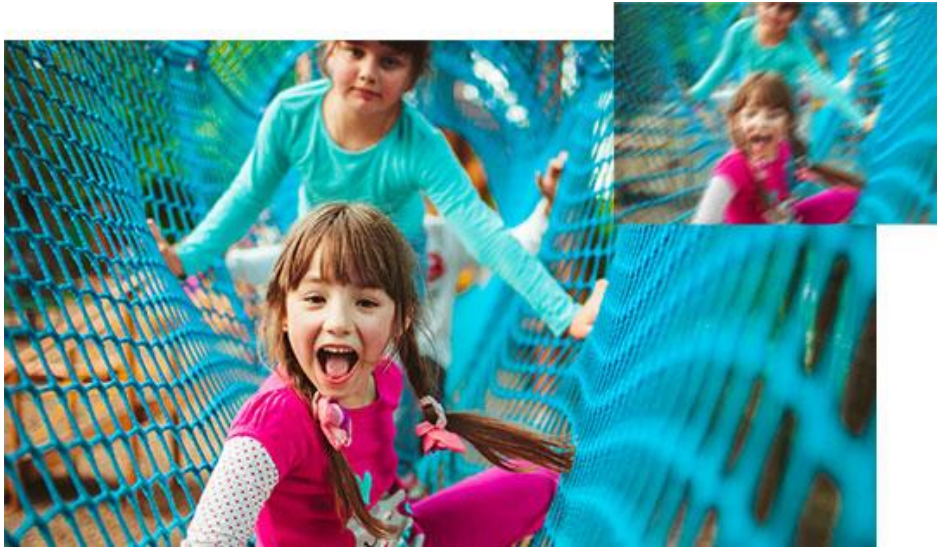
POWERFUL LAYER EDITING

Layer editing provides the flexibility to create unique compositions by combining images, texts and graphics.



- Creative Blending Modes
- Adjustment Layers
- NEW Bevel & Emboss Text Effects
- NEW Customizable Warped Text Layers
- NEW Group & Filter Layers
- NEW Snap Alignment in Layers
- NEW One-click Layer Alignment
- NEW One-click Layer Distribution

AI-Powered Deblur



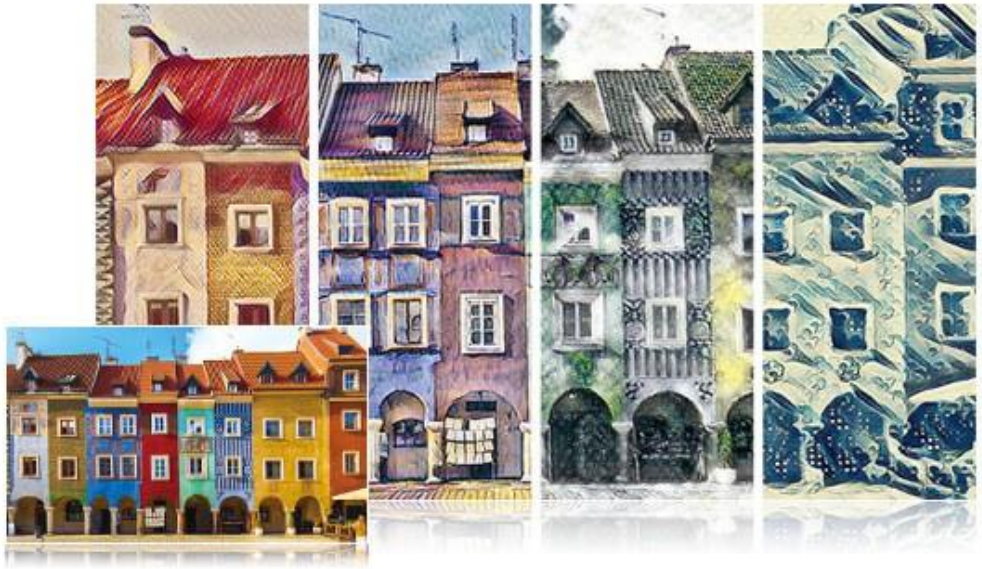
Intelligent Deblur is perfect for fixing up photos of excited children and pets, or snaps taken from moving vehicles.

Photo Management with AI Facial Recognition

Tag a face in one photo, and it will be automatically detected & tagged in all existing and future shots.

AI Styles

Our AI engine intelligently applies brushstrokes that make pictures look like they were designed and painted by a master artist.



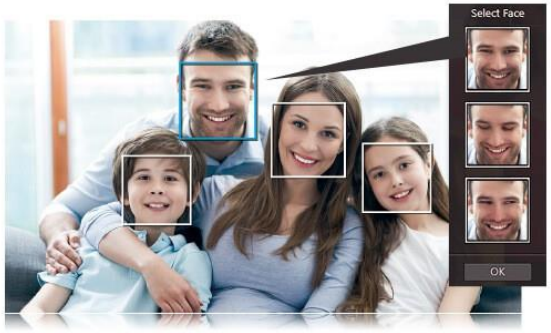
Amazing Photos from Video

Multi-Exposures Shots

Extract photos from a video clip and turn them into a multi-exposure image.

Vibrant Motion Still™

Brush sections of a video clip to retain movement in that area only.



Video-to-Photo Face Swap

Instantly create perfect group photos from video clips.

Advanced Color Replacement

Completely change the color of specific objects in a picture for a whole new look.

CONTENT-AWARE REMOVE, MOVE & CLONE

Remove, duplicate, or move objects within photos simply by brushing over them.

Frame, LUT, & Clip Art Packs

Give your images the perfect finishing touch with professionally designed frames & stickers in a range of styles.

Express Layer Templates

Instantly create complex multi-layer images to achieve distinctive styles.

Sharper Images & Better Clarity

Dehaze

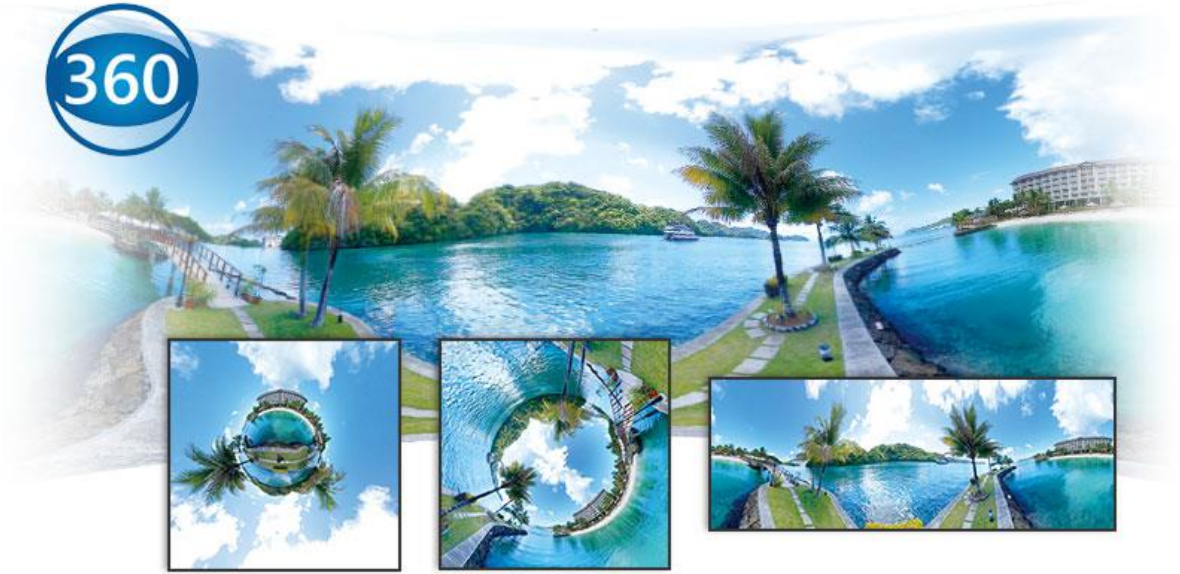
Strip away haze, fog and smog to reveal crisp, clear landscapes.

Defringe

An easy, one-step tool to get rid of distracting color fringes for a sharper look.

Incredible 360° Photo Editing

Import, edit, correct and export 360° photos using all the editing features you know. It's a whole new perspective on photography.

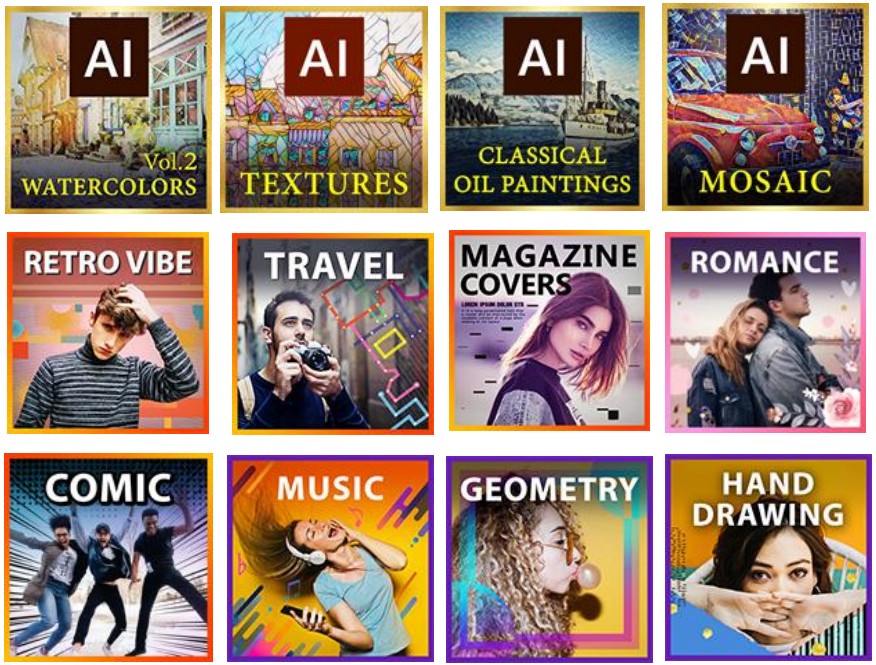


Plug-ins & Effects

Never lack creative inspiration.

Premium Creative Design Packs

Get unlimited use of all express layer templates, AI style effect packs, frames and clip art. We're releasing new packs every month which you can access for free!



NEW PACKS EVERY MONTH!
